

Auto Ticket Classification Using Flow Designer

PROJECT DEVELOPMENT PHASE

MODEL PERFORMANCE TEST

Date	28 September 2026
Team ID	SWTID-2026-1853
Team Leader	Vaishnavi M
Team Members	Akshaya A, Subashini R, Muthu Lekshmi U
Project Name	Auto Ticket Classification
Maximum Marks	10 Marks

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
1	Metrics – Classification Model	Confusion Matrix - _____ Accuracy Score - _____ Classification Report - _____	Attach Screenshot
2	Tune the Model	Hyperparameter Tuning - _____	Attach Screenshot
	Validation Method	_____	Attach Screenshot

Auto Ticket Classification – Metric Details

Parameter	Details
Confusion Matrix	Shows the classification results across the ticket categories.
Accuracy Score	Shows the overall percentage of correctly classified tickets.
Classification Report	Records classification performance for the ticket categories.
Hyperparameter Tuning	Record the hyperparameter tuning performed for the classification model.
Validation Method	Record the validation method used to evaluate the classification model.

Note:

Enter the actual values obtained from your Auto Ticket Classification model. The uploaded Machine Learning template specifies classification metrics, hyperparameter tuning, and validation method; no actual model results were provided in the template.
